

CURB PROTECTOR™

CURB PROTECTOR

Product Specification

CURB PROTECTORS

- Curb Protectors are available in sizes to fit most industry standard curb inlets.
- Custom sizes are available to fit most applications.
- Curb Protectors are reusable, adjustable, and adaptable to each sites specific needs.
- Filter Media-Paks available for the removal of hydrocarbons, metals, sand, silt, and litter.
- Optional Antimicrobial Media-Pak, which aids in the prevention of bacterial growth and protection against odor causing water borne pathogens.
- Media is nonhazardous, per EPA and OSHA standards.
- Filter design requires storm events to be filtered through Media-Pak. This prevents flows from bypassing Media-Pak.
- Easy to install in new and existing curb inlets.
- Meets Best Available Technology for use in Stormwater Best Management Practices (BMP).
- Maintenance contracts, including recycling of all spent absorbents are available through REM Service Department.
- Servicing of filters on a regular basis is a requirement to meet most local and state BMP's.

MODEL CP8 - INSTALLED

CURB PROTECTOR

REM has developed the CURB PROTECTOR to help developers/contractors meet compliance regulations for both NPDES phase 1 & 2, and jobsite (SWPPP's) programs.

The Curb Protector helps eliminate the use of sandbags during the course of construction. Curb Protectors are reusable, adjustable, and adaptable to each sites specific needs.

Patent Pending

REM - HELPING KEEP YOUR WATERWAYS CLEAN

The most recent National Water Quality Inventory reports that runoff from urban areas is the leading source of impairments to surveyed estuaries and the third largest source of water quality impairments to surveyed lakes. In addition, population and development trends indicate that by 2010 more than half of the Nation will live in coastal towns and cities. Runoff from these rapidly growing urban areas will continue to degrade coastal waters.¹

NOTES:

1. Curb Protectors can be customized in the field to be adaptable to the many different types of curb inlets available today.
2. Larger curb inlets can be manufactured by combining the different sizes listed.
3. Curb Protectors are available in sizes to fit most industry standard curb inlets.
4. Custom sizes are also available to fit most applications.
5. Curb Protectors external cage shall be made of .162 diameter, 8 gauge Type 304 stainless steel.
6. Top cap is made of High Impact Polystyrene Plastic with U.V. inhibitors added.
7. Filter Media-Paks are easily removed from units for easy maintenance.
8. Filter design requires storm events to be filtered through Media-Pak. This prevents flows from bypassing Media-Pak, which filters out hydrocarbons and other pollutants.
9. Media-Paks can be customized for different removal needs.
10. The disposable Media-Pak is constructed from durable geo-textile polypropylene fabric.
11. 5/16" diameter removable/reusable Type 304 stainless steel bar is used for anchoring the Media-Pak.
12. Filter Media is non-hazardous per EPA and OSHA standards.
13. Please refer to manufacture's recommendations for an approved maintenance program.

STANDARD DIMENSIONS

MODEL*	C/O**	A	B
CP2	2'	1' 11"	5.5"
CP3	3'	2' 11"	5.5"
CP3.5	3' 6"	3' 5"	5.5"
CP4	4'	3' 11"	5.5"
CP7	7'	6' 11"	5.5"
CP10	10'	9' 11"	5.5"
CP14	14'	13' 11"	5.5"
CP21	21'	20' 11"	5.5"
CP28	28'	27' 11"	5.5"

note:

* Many other sizes are also available.

** C/O is the Curb Opening in feet.
